

PV Lab Documentation Considerations

Brian H. Hurd, 2011

Adequate Lab forms – for recording results, step by step:

- Title of Activity
- Detailed Activity Description
- Rationale
- Learning Objectives
- Sequence
- Equipment/ tools/ mockups/ etc. required per student group
- Safety considerations including adequate supervision
- Environment description:
 - Indoor or outdoor and type of facilities
- Set up - steps
- Diagnostics (if applicable)
- Corrective action (if applicable)
- Conclusion
- Student Assessment
